

WAFERPRESENTER WP 112

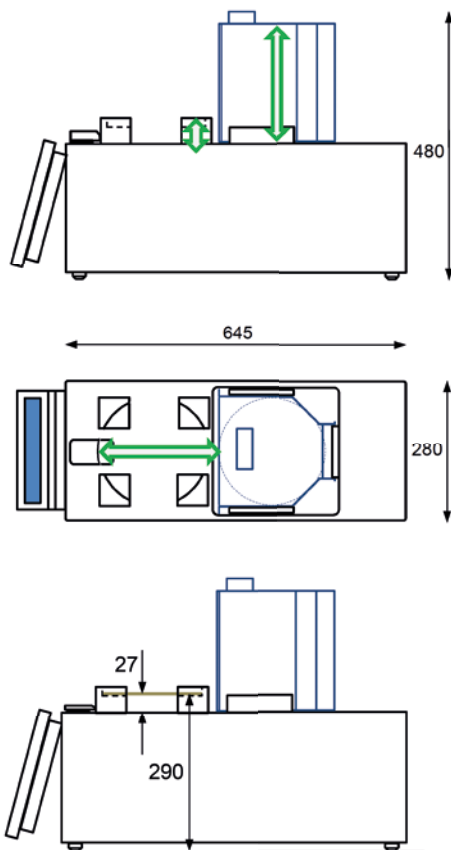

Machine for semi-automatic loading and unloading of 100mm (4"), 160mm (6") and 200mm (8") from a cassette. Vacuum or vacuumless Grabber.

The latest product of AT-logic® is the REA-tronic® Waferpresenter. The machine handling of the wafer prevents unnecessary scratches which are caused by vacuum tweezers or suchlike.

The following programme is available for users:

- **Inspection**
- **Loading**
- **Unloading**
- **Sputter Modus**

The compact construction of the Waferpresenter as a table-top unit enables the use of the wafer production in all areas.
